

**Dean McGee Eye Institute
25th Annual Alumni Technician Lecture Series
Saturday, May 31, 2025**

**Samis Education Center
1200 Children's Avenue
Oklahoma City, OK 73104
8:00 a.m. – 3:20 p.m.**

**Registration and Continental Breakfast
7:15 – 8:00 a.m.**

8:00-9:00 "The Alphabet Soup of Modern Corneal Surgeries"

Kamran M. Riaz, MD / 1 CEC A / Intermediate to Advanced

This course will discuss the spectrum of modern corneal surgeries being formed in the United States (as of June 2025). In recent years, a number of new procedures have been successfully utilized to improve and complement existing and traditional corneal surgeries. This lecture will update attendees on these new procedures, including how these new procedures fit within the paradigm of visual rehabilitation for patients with corneal disease.

★ *Financial Interest*

9:00-10:00 "Beauty Redefined"

Thai Do, MD / 1 CEC A / Basic to Intermediate

This course will discuss anatomical, psychological, and cultural consideration of beauty and their applications to surgical evaluation.

10:00-10:20 BREAK

10:20-11:20 "Refraction and Retinoscopy Roundup"

Rachel M. Caywood, OD, FAAO / 1 CEC A / Basic to Intermediate

This course will review basic retinoscopy and refraction techniques. Clinical pearls will be reviewed to improve efficiency and accuracy for both retinoscopy and refraction.

11:20-12:20 "Eye Candy: Sweet Solutions for Pediatric Eye Care"

Tammy L. Yanovitch, MD, MHSc / 1.0 CEC A / Basic to Intermediate

This course offers an in-depth examination of common ophthalmic conditions commonly encountered in pediatric patients. The program covers essential screening strategies, first-line treatments, and current concepts in pediatric ophthalmology. Through case studies and practical insights, participants will gain the knowledge and skills to assist effectively in diagnosing and managing a range of ocular disorders in children.

12:20-1:20 LUNCH

1:20-2:20 "Immune Mediated Ocular Disease – Atopic and Allergic Eye Disease"

Rhea L. Siatkowski, MD / 1.0 CEC A / Basic to Intermediate

Review of allergic and atopic conjunctivitis and keratoconjunctivitis. Review of etiologies, diagnosis, and treatment options.

2:20-3:20 "Seeing Beyond the Eyes: Neurological Signs in Eye Care"

Stacie Newton, OD / 1 CEC A / Basic to Intermediate

Participants will learn how to identify neurological red flags during an ophthalmic workup by analyzing pupil reactions, eye movements, and visual field abnormalities.

- *These courses have been submitted to IJCAHPO for consideration of CE credits.*
 - *This program is not sponsored by IJCAHPO; it is only reviewed for compliance with IJCAHPO standards and criteria and awarded continuing education credit accordingly; therefore, IJCAHPO cannot predict the effectiveness of the program or assure its quality in substance and presentation.*
 - *CE Credit for a course hour will be denied to individuals who miss more than 25% of that course.*
